

TO: Alameda Hospital Neighbors

FROM: Terrence Fitzgerald Shaw, Chief Administrative Officer and Associate Chief Nursing Officer, Northern Region

DATE: January 5, 2026

SUBJECT: Alameda Hospital HVAC Infrastructure Project

We appreciate your continued patience as our team works to improve the HVAC system at Alameda Hospital. Planning, preparation, and make-ready construction have been ongoing, and we wanted to provide you with an update on what to expect in the coming weeks.

Beginning the week of January 12, there will be increased activity, including concrete pad demolition and debris removal, followed by the installation of metal pipes. Due to the potential for increased noise during this phase, the construction company remains committed to minimizing disruptions to the neighborhood. They will continue to use quieter equipment whenever possible and will strictly adhere to the City of Alameda's noise ordinance.

We will continue to post construction updates at www.alamedahealthsystem.org/alamedahospital/construction. Please check there for the latest information.

For more information about Alameda Hospital, please visit www.alamedahealthsystem.org/alamedahospitalhighlights.

If you have any concerns or questions, please feel free to reach out to James Helena, System Director of Engineering and Facilities Services for Alameda Health System, at 510-203-0757.

Thank you for your understanding and support as we make these necessary improvements to the hospital.
